About Intern Stump

Intern Stump was announced on 26th June, 2021 and launched on 8th July, 2021 on a mission to make education more accessible, engaging, and effective for everyone. We believe that learning should be a lifelong journey, and that everyone has the potential to succeed. At Intern Stump, We believe that everyone should have access to high-quality skill based education, regardless of their domain background or circumstances. That's why we offer a wide range of online trainings and programs for learners in all skill levels. Intern Stump provides high-quality learning resources that inspire, engage, and enable individuals to achieve their learning goals. We strive to create an inclusive and supportive learning environment where every student can thrive. Intern Stump offers a wide range of courses across various Domains, catering to the diverse interests and needs of our learners. we have come a long way in our journey to make education more engaging, accessible, and effective.

Intern Stump Products

Intern Stump offers EaseInternZ for live project training, SkillNex Data for analytics skills, FinTrack Skills for financial expertise, and Orate Nexus for communication and leadership development. These products provide focused upskilling in their respective areas to enhance career growth.

About EaseInternZ

Welcome to EaseInternZ, your gateway to practical learning and real-world experience. As a proud product of Intern Stump, we are dedicated to transforming the way individuals gain skills and knowledge in today's competitive job market. Our platform is designed to bridge the gap between theoretical knowledge and practical application by offering training programs enriched with live projects and hands-on work experience.

EaseInternZ Programs

EaseInternZ is committed to empowering professionals with the knowledge and practical expertise needed to excel in today's fast-paced and competitive job market. We offer a comprehensive range of upskilling programs designed to enhance your skills across various financial and analytical domains. Our programs are complemented by hands-on Live Work Experience, ensuring that learners gain real-world knowledge that can be immediately applied in their careers. By combining theoretical learning with practical application, we equip you with the confidence and competencies required to stand out and advance in your career, making you an invaluable asset to organization.

Medical Coding

The Medical Coding program provides comprehensive training in coding medical diagnoses, procedures, and services using ICD-10-CM, CPT, and HCPCS. It includes outpatient coding, HCC, IPDRG, specialty coding, insurance, reimbursement, and compliance, ensuring accuracy in billing and reimbursement processes.

This program designed to bridge the gap between academic learning and real-world application by offering participants hands-on training and exposure to the industry's practices, technologies, and challenges.

Stage 1: Domain Training

Duration:
2 Months

Day Schedule:
3 Hours/ Day

01 Program Module

- Medical Terminology: Learn basic medical terms used in healthcare and coding practices.
- Anatomy Structure: Study human body anatomy for accurate diagnosis and coding procedures.
- Medical Ethics: Understand ethical principles in medical coding and healthcare practices.
- ICD-10-CM Coding Manual: Learn the structure and application of ICD-10-CM coding system.
- Infections using ICD-10-CM: Code infectious diseases accurately using ICD-10-CM guidelines.

02 Program Module

- Digestive System using ICD-10-CM: Code digestive system diseases using ICD-10-CM guidelines.
- Coding for Pregnancy using ICD-10-CM: Code pregnancy-related ICD-10-CM coding system.
- CPT Coding for Reproductive Systems: Learn coding for reproductive system procedures
- Coding for Mental Disorders using ICD-10-CM: Accurately code, using ICD-10-CM guidelines.
- Healthcare and Medical Coding: Understand basic healthcare concepts, role of medical coding.

03 Program Module

- Overview of Healthcare Industry: Learn about healthcare operations and key industry elements.
- Role of Medical Coders, Understand the important role of coders in healthcare systems.
- Accurate Medical Coding: Learn why accurate coding is crucial for healthcare efficiency.
- Medical Terminology: Study essential medical terms used in healthcare and coding practices.
- Anatomy and Physiology: Learn human anatomy and physiology to improve coding accuracy.

Stage 1: Domain Training

Duration:
2 Months

Day Schedule:
3 Hours/ Day

04 Program Module

- Common Medical Abbreviations: Familiarize with commonly used medical abbreviations
- Understanding the Structure and Format of ICD-10-CM: Study ICD-10-CM structure
- Coding Conventions and Guidelines: Learn ICD-10-CM conventions and guidelines
- Coding for Diseases and Conditions: Code diseases and conditions using ICD-10-CM
- Overview of CPT Coding: Understand basics of CPT coding for medical procedures and services.

05 Program Module

- Coding for Procedures Services: Learn accurate coding for procedures and services using CPT.
- Modifiers and Their Use in Coding: Learn how to apply modifiers in CPT procedure coding.
- Introduction to HCPCS Level II Codes: Study HCPCS Level II codes for medical supplies
- Coding for Durable Medical Equipment: Learn to code for DME, supplies, medical equipment.
- Coding for Supplies, Drugs: Master coding for medical supplies and drugs using HCPCS system.

06 Program Module

- Health Insurance Basics: Understand basic health insurance concepts related to medical coding.
- Overview of Reimbursement Systems: Study reimbursement systems and their connection
- Claim Submission and Processing: Learn steps for claim submission and processing
- Compliance with Coding Guidelines and Regulations
- Ethical Considerations in Medical Coding: Study ethical standards and practices

Stage 1: Domain Training

Duration:
2 Months

Day Schedule:
3 Hours/ Day

07 Program Module

- Fraud and Abuse Prevention: Prevent fraud and abuse in coding with ethical practices.
- Introduction to Electronic Health Records (EHR): Learn principles of electronic health records
- Use of Technology in Medical Coding: Study technology's role in improving medical coding
- Health Information Management Principles: Learn health information management principles
- Coding for Medical Specialties: Master coding techniques for specific medical specialties

08 Program Module

- Outpatient Coding: Code outpatient visits, procedures, and treatments accurately
- HCC Coding: Understand HCC coding for accurate risk adjustment and classification.
- IPDRG Coding: Learn IPDRG coding for inpatient care reimbursement and classification systems.
- Specialty Coding for Complex Conditions: Master coding for complex conditions
- Advanced Coding Techniques: Master advanced coding techniques.

09 Program Module

- Working with the Introduction Chapter Including Objectives, Need for the study and etc.
- Working with the Industry Profile and Company Profile Chapter
- Working with the Theoretical Framework Chapter
- Working with the Results and Discussion or Data Analysis Chapter
- Working with the Findings, Suggestions and Conclusion Chapter

Stage 2: Interview Training

Duration:
1 Month

Day Schedule:
3 Hours/ Day

01 Program Module

- **Just A Minute Sessions:** JAM (Just A Minute) sessions are dynamic training activities that improve communication and public speaking skills. Participants are challenged to speak on a given topic for one minute without hesitation or repetition. These sessions help build confidence, enhance quick thinking, and sharpen articulation, making them a valuable exercise for personal and professional development.

02 Program Module

- **Mock Interviews:** Mock interview preparation is an essential practice to enhance interview skills and boost confidence. It simulates real interview scenarios, allowing candidates to practice responding to common questions, handling pressure, and refining communication techniques. This exercise helps identify areas of improvement, providing valuable feedback to improve performance, and increase the chances of success in actual interviews.

03 Program Module

- **Presentation Activities:** Presentation activities are designed to enhance communication, public speaking, and presentation skills. Participants prepare and deliver presentations on various topics, helping them build confidence in expressing ideas clearly and engagingly. These activities focus on improving content organization, visual aids usage, body language, and voice modulation, making them crucial for professional and academic success.

Stage 2: Interview Training

Duration:
1 Month

Day Schedule:
3 Hours/ Day

04 — Program Module

- **Group Discussion Preparation:** Group discussions are interactive sessions that foster effective communication, teamwork, and critical thinking. Participants engage in conversations on a specific topic, sharing perspectives and analyzing various viewpoints. These discussions help improve listening skills, articulate ideas clearly, and develop the ability to collaborate. They are essential for building confidence, leadership, and problem-solving abilities in a group setting.

05 — Program Module

- **Resume Building Session:** Resume enhancement sessions focus on improving the structure, content, and overall presentation of resumes. Participants receive personalized feedback on how to highlight their skills, achievements, and experience effectively. These sessions also provide guidance on tailoring resumes to specific job roles, optimizing keywords for Applicant Tracking Systems (ATS), and creating a professional and compelling first impression.

06 — Program Module

- **Mock E2E Interview Session:** End-to-end mock interview sessions simulate the entire interview process, providing a thorough preparation experience. Candidates go through each stage, from resume screening and initial interviews to technical and behavioral rounds. These mock sessions include real-time feedback on communication, problem-solving skills, and interview techniques, helping participants gain confidence and refine their responses for actual job interviews.

Stage 3: Live Work Experience

Duration:
3 Months

Day Schedule:
3 Hours/ Day

01 Program Module

- **Outpatient Coding Live Work Experience:** In this live work experience, you will gain practical knowledge in outpatient coding by working on real-world cases. You'll focus on coding outpatient visits, procedures, and treatments using ICD-10-CM, CPT, and HCPCS codes. This experience will teach you how to ensure accurate and compliant coding for various outpatient services, helping you understand the importance of precision for reimbursement patient care.

02 Program Module

- **HCC Coding:** Dive into the complexities of Hierarchical Condition Category (HCC) coding through this live work experience. You'll work with patient data to categorize medical conditions based on severity, ensuring proper risk adjustment. Understanding HCC coding is crucial for accurate Medicare Advantage reimbursements. You will gain hands-on experience applying HCC coding in practice, focusing on proper documentation and coding

03 Program Module

- **IPDRG Coding:** Gain hands-on experience in Inpatient Prospective Payment Diagnosis Related Groups (IPDRG) coding. This work experience will guide you in coding inpatient cases using the IPDRG system, which determines reimbursement for inpatient care based on diagnosis and procedures. You'll learn to accurately classify diagnoses and procedures, ensuring that your coding aligns with Medicare payment systems.

Stage 3: Live Work Experience

Duration:
3 Months

Day Schedule:
3 Hours/ Day

04 Program Module

- **Specialty Coding for the Complex Conditions:** This live work experience provides specialized exposure to coding complex medical conditions across various specialties, such as cardiology, oncology, and neurology. You will work with detailed patient case studies, utilizing advanced ICD-10-CM, CPT, and HCPCS codes. By mastering specialty coding techniques, you'll learn how to tackle intricate cases, ensuring compliance with regulations while maximizing reimbursement.

05 Program Module

- **Advanced Coding Techniques for Medical Specialties:** In this live work experience, you will explore advanced coding techniques used across various medical specialties. Working on complex patient cases, you'll apply sophisticated coding strategies in areas like radiology, surgery, and pathology. You'll gain proficiency in using ICD-10-CM, CPT, and HCPCS codes to handle intricate coding scenarios.

06 Program Module

- **Compliance and Ethics in Medical Coding:** This live work experience emphasizes the importance of compliance and ethics in medical coding. You'll work with real patient cases, ensuring adherence to coding regulations, such as HIPAA and CPT guidelines. The experience focuses on identifying potential coding errors and understanding ethical considerations in the coding process.
